Dr. George May 22 2020 For twenty-three years, George Fischbeck was a schoolteacher in Albuquerque, and for the last thirteen of those years taught science on a public television station that was beamed all over New Mexico. He also served as a weatherman on Albuquerque's top-rated TV newscast where he was so popular that the general manager of a competing station sent tapes of his weather forecasts to all the top ABC Network stations nationwide in hope that one would hire George and get him out of New Mexico. When KABC-TV in Los Angeles responded, it was the start of a love affair between Dr. George and the City of Angels that continues to this day. Not only has Fischbeck had

a long career as an awardwinning journalist and educator, he has also helped raise millions of dollars for a variety of charitable causes. His story is all here, and the best part is what the fewest people know: the heartwarming memories of a family man.

Toyota Celica GT-Four Jan 22 2023 This is a comprehensive study of the career of the Toyota Celica GT-Four. Starting in 1988, three generations of this effective turbocharged four-wheel-drive car - known by enthusiasts as ST165, ST185 and ST205 types - fought for World

Championships, and were amazingly successful for almost a decade. All types combined high-performance, great reliability, and superb preparation by Toyota Team Europe (based in Cologne, Germany), their 300bhp/four-wheel-drive chassis package being among the best in the world. Over the years, the cars won some of the roughest events in the world (such as the Safari and the Acropolis), and were also supreme on tarmac, snow and ice, including Monte Carlo. After fighting a running battle with Lancia for years, the Celicas won the World Manufacturers' Championship twice. Its famous drivers included Carlos Sainz (World Champion in 1990 and 1992), Juha Kankkunen (Champion in 1993) and Didier Auriol (Champion in 1994). Never far from controversy, and at times embroiled in technical and regulatory disputes, these cars brought real glamour to the colourful sport of rallying, and were only replaced by an even higher-tech Toyota - the Corolla World Rally Car - in 1997.
