International Legal English Nov 22 2022 English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. This book provides a highly practical approach to the use of English in commercial legal contexts, and covers crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly suitable for readers whose first language is not English but need to use English on a regular basis in legal contexts. The book covers both written and verbal legal communication in typical legal situations in a straightforward manner. In addition to chapters on the grammar and punctuation utilised in legal writing, the book features sections on contract-drafting and the language used in negotiations, meetings and telephone conversations. It features a companion website which contains exercises covering the majority of the topics covered in the book's chapters. This edition thoroughly revises and expands the content of the companion website and contains updated examples, more detailed explanations of problematic areas and an expanded section on writing law essays.

The Throne Motif in the Book of Revelation Nov 10 2021 This book argues that the throne motif constitutes the major interpretive key to the complex structure and theology of the book of Revelation. In the first part of the book, Gallusz examines the throne motif in the Old Testament, Jewish literature and Graeco-Roman sources. He moves on to devote significant attention to the throne of God texts of Revelation and particularly to the analysis of the throne-room vision (chs. 4&5), which is foundational for the development of the throne motif. Gallusz reveals how Revelation utilizes the throne motif as the central principle for conveying a theological message, since it appears as the focus of the author from the outset to the climax of the drama. The book concludes with an investigation into the rhetorical impact of the motif and its contribution to the theology of Revelation. Gallusz finally shows that the throne, what it actually represents, is of critical significance both to Revelation's theism and to God's dealing with the problem of evil in the course of human history.

Yes, I Can Read! Aug 07 2021 Yes, I Can Read! was written for fourth graders through adults who are nonreaders, beginning readers, or struggling readers, those who speak English as well as ESL learners. The workbook was designed for learners who may be working with minimal assistance in a one-on-one, small group, or classroom setting, and its reading levels range from 0 to 5.9. What you will find in Yes, I Can Read! - Flexibility: Can be used as a decoding program or as a supplement to strengthen particular skills. - Explicit, sequential phonics and the multi-sensory approach: Research-based, proven methods facilitate learning, inspiring confidence in students. - Easy to use: Designed for student success and mastery, its predictable page format with completed examples, illustrations, phonetic pronunciations, and symbols serve as cues for students. Matching, tracing, word search and fill-in-the-blank exercises reinforce learning. - Extensive reading, vocabulary, spelling, tracing, and handwriting practiced - 2,000-plus words - Age-appropriate format Combination teacher's manual and student workbook "This book is an abundant resource of phonetic exercises. These exercises gave my student confidence and a momentum to move smoothly along in her reading efforts because once she finished the lessons

and exercises, she remembered how to spell and read the words. This book is well organized and at your fingertips to use. I am so glad to have found this resource!" - Martha Wilson, Literacy Tutor "I wish I had this book when I was homeschooling my kids." - Susan Christensen

We Need To Talk Feb 13 2022 Take a moment to consider how many outcomes in your life may have been affected by poor communication skills. Could you have gotten a job you really wanted? Saved a relationship? What about that political conversation that got out of hand at a dinner party? How is it that we so often fail to say the right thing at the right time? In her career as an NPR host, journalist Celeste Headlee has interviewed hundreds of people from all walks of life, and if there's one thing she's learned, it's that it's hard to overestimate the power of conversation and its ability to both bridge gaps and deepen wounds. In *We Need to Talk*, she shares what she's learned on the job about how to have effective, meaningful, and respectful conversations in every area of our lives. Now more than ever, Headlee argues, we must begin to talk to and, more importantly, listen to one another - including those with whom we disagree. *We Need to Talk* gives readers ten simple tools to help facilitate better conversations, ranging from the errors we routinely make (put down the smart phone when you're face to face with someone) to the less obvious blind spots that can sabotage any conversation, including knowing when not to talk, being aware of our own bias, and avoiding putting yourself in the centre of the discussion. Whether you're gearing up for a big conversation with your boss, looking to deepen or improve your connection with a relative, or trying to express your child's needs to a teacher, *We Need to Talk* will arm you with the skills you need to create a productive dialogue.

Science Through Children's Literature Jun 17 2022 Contains over thirty instructional units which show teachers how to use famous children's books to introduce their students to the life, earth, and physical sciences.

Teaching Elementary Science Oct 17 2019 This is intended to be a how-to-do guide for the elementary classroom teacher whose principal has recently said, "We usually teach more science. You know our children are living in a scientific age." It's for teachers who want to learn some down-to-earth things about how to begin to teach science if they don't know much subject matter, haven't had much experience with doing experiments, and are perhaps a little awed by the prospects of science teaching. Just reading this bulletin won't make anybody a better science teacher. It is hoped that trying out some of the ideas and adapting them to fit specific needs, will. Just reading it won't give anyone enthusiasm for teaching science either, but using some of the suggestions in working with children may help to keep children's natural enthusiasm alive, and my expand somewhat. No suggested outline of subject matter is included since selection and organization of content material differs with various schools and is best done by the individuals with first-hand knowledge of the needs, aptitudes, abilities, and interests of the pupil groups and of the local resources available. A selected bibliography is included. [Best copy available has been provided.]
