**Surface Waves and Fluxes** May 17 2022 During the Conference on Air-Sea Interaction in January 1986, it was suggested to me by David Larner of Reidel Press that it may be timely for an updated compendium of air-sea interaction theory to be organized, developed, and published. Many new results were emerging at the time, i.e., results from the MARSEN, MASEX, MILDEX, and TOWARD field projects (among others) were in the process of being reported and/or published. Further, a series of new experiments such as FASINEX and HEXOS were soon to be conducted in which new strides in our knowledge of air-sea fluxes would be made. During the year following the discussions with David Larner, it became apparent that many of the advances in air-sea interaction theory during the 1970s and 1980s were associated with sponsor investments in satellite oceanography and, in particular, remote sensing research. Since

ocean surface remote sensing, e.g., scatterometry and SAR, requires intimate knowledge of ocean surface dynamics, advances in remote sensing capabilities required coordinated research in air-sea fluxes, wave state, scattering theory, sensor design, and data exploitation using environmental models. Based on this interplay of disciplines, it was decided that this book be devoted to air sea interaction and remote sensing as multi-disciplinary activities.

Guide to U.S. Government Statistics Nov 30 2020 A directory of U.S. government statistics publications by issuing agency. Entries include GPO stock number, LC and Dewey classification, OCLC and ISSN numbers, and sometimes a description. Includes geographic index.

**Security on IBM z/VSE** Feb 26 2023 One of a firm's most valuable resources is its data: client lists, accounting data, employee information, and so on. This critical data must be securely managed and controlled, and simultaneously made available to those users authorized to see it. The IBM® z/VSE® system features extensive capabilities to simultaneously share the firm's data among multiple users and protect them. Threats to this data come from various sources. Insider threats and malicious hackers are not only difficult to detect and prevent, they might be using resources with the business being unaware. This IBM Redbooks® publication was written to assist z/VSE support and security personnel in providing the enterprise with a safe, secure and manageable environment. This book provides an overview of the security that is provided by z/VSE and the processes for the implementation and configuration of z/VSE security components, Basic Security Manager (BSM), IBM CICS® security, TCP/IP security, single sign-on using LDAP, and connector security.

IBM z/OS V2R2: Unix Systems Services Aug 20 2022 This IBM® Redbooks® publication familiarizes you with the technical changes that were introduced into the UNIX System Services areas with IBM z/OS® V2R2. This book is one of a series of IBM Redbooks publications that take a modular approach to providing information about the updates that are included within z/OS V2R2. This approach has the following goals: - Provide modular content - Group the technical changes into a topic - Provide a more streamlined way of finding relevant information that is based on the topic We hope you find this approach useful. We value your feedback.

IBM z/OS V2R2: Performance Mar 15 2022 This IBM® Redbooks® publication helps you to become familiar with the technical changes that were introduced into the performance areas with IBM z/OS® V2R2. This book is one of a series of IBM Redbooks publications that take a modular approach to providing information about the updates that are contained within z/OS V2R2. This approach has the following goals: - Provide modular content - Group the technical changes into a topic - Provide a more streamlined way of finding relevant information based on the topic. We hope you find this approach is useful. We value your feedback.

IBM z/OS V2R2: Sysplex Oct 10 2021 This IBM® Redbooks® publication helps you to become familiar with the technical changes that were introduced into the Sysplex areas with IBM z/OS® V2R2. This book is one of a series of IBM Redbooks publications that takes a modular approach to providing information about the updates that are contained within z/OS V2R2. This approach includes the following goals: - Provide modular content - Group the technical changes into topics - Provide a more streamlined way of finding relevant information that is based on the topic We hope you find this approach useful and value your feedback.

User's Guide to Monroe County Jul 27 2020

*IBM z/OS V2R2: ServerPac* Feb 02 2021 This IBM® Redbooks® publication helps you to become familiar with the technical changes that were introduced into the Serverpac area with IBM z/OS® V2R2. This publication includes the following chapters: - Chapter 1, "ServerPac" on page 1: Provides a summary of the z/OS V2R2 enhancements. - Chapter 2, "Order receive" on page 5: Describes the use of HTTPS to receive your order. - Chapter 3, "Creating a configuration" on page 9: Describes the affect of the SDSF zone change. - Chapter 4, "Variable Panel updates" on page 13: Describes setting up z/OSMF and the SMF option. - Chapter 5, "Modify System Layout option" on page 17: Describes large file system default allocation, enhanced support for file system merge, enhanced support for SMS managed data sets, and new data set view options. - Chapter 6, "Installation job changes" on page 29: Describes changes that were made to the create and submit installation jobs functions, which includes z/OSMF configuration, PFA configuration, KC4z configuration, and SMF logstream setup. This book is one of a series of IBM Redbooks publications that take a modular approach to providing information about the updates that are included with z/OS V2R2. This approach has the following goals: - Provide modular content - Group the technical changes into a topic - Provide a more streamlined way of finding relevant information that is based on the topic We hope you find this approach useful and we welcome your feedback.

**Handbook of Environmental and Ecological Modeling** Jun 18 2022 With descriptions of hundreds of the most important environmental and ecological models, this handbook is a unique and practical reference source. The Handbook of Environmental and Ecological Modeling is ideal for those working in environmental modeling, including regulators and managers who wish to understand the models used to make assessments. Overviews of more than 360 models are easily accessed in this handbook, allowing readers to quickly locate information they need about models available in a given ecosystem. The material in the Handbook of Environmental and Ecological Modeling is logically arranged according to ecosystem. Each of the sixteen chapters of the handbook covers a particular ecosystem, and includes not only the descriptions of the models, but also an overview of the state-of-the-art in modeling for that particular ecosystem. A summary of the spectrum of available models is also provided in each chapter. The extensive table of contents and the easy-to-use index put materials immediately at your fingertips.

**HP-UX User's Guide** Oct 30 2020 A complete guide to HP Vue for the beginning, day-to-day user, this indispensable book covers over 100 of the most useful HP-UX commands, including real-world screen displays to illustrate concepts, dozens of tips to save keyboard strokes and increase productivity, and hints and suggestions for customizing HP Vue setup files for your specific needs.

**User's Guide to the Population, Resources, Environment and Development Databank (PRED Bank, Version 2.1)** Dec 20 2019 This user's guide takes you through the steps on how to use both the PRED Databank & PopMap software. It also gives a detailed description of the PRED Bank data set. The Population, Resources, Environment & Development Databank (PRED Databank version 2.1) presents data series dealing with various aspects of population, the labour force, economic growth, agriculture, & natural resource use & their trends from 1961 to 1990. The PopMap Retrieval System (PopMap version 3.01), which accompanies the database, makes it possible to generate thematic maps of PRED Bank variables, to manipulate data & save selected data in a choice of data formats.
