Globalizing Cultural Studies Mar 12 2022 The contributors to Globalizing Cultural Studies: Ethnographic Interventions in Theory, Method, and Policy take as their central topic the problematic status of «the global» within cultural studies in the areas of theory, method, and policy, and particularly in relation to the intersections of language, power, and identity in twenty-first century, post-9/11 culture(s). Writing against the Anglo-centric ethnographic gaze that has saturated various cultural studies projects to date, contributors offer new interdisciplinary, autobiographical, ethnographic, textual, postcolonial, poststructural, and political economic approaches to the practice of cultural studies. This edited volume foregrounds twenty-five groundbreaking essays (plus a provocative foreword and an insightful afterword) in which the authors show how globalization is articulated in the micro and macro dimensions of contemporary life, pointing to the need for cultural studies to be more systematically engaged with the multiplicity and difference that globalization has proffered.

Algebraic Complexity Theory Sep 06 2021 The algorithmic solution of problems has always been one of the major concerns of mathematics. For a long time such solutions were based on an intuitive notion of algorithm. It is only in this century that metamathematical problems have led to the intensive search for a precise and sufficiently general formalization of the notions of computability and algorithm. In the 1930s, a number of quite different concepts for this purpose were proposed, such as Turing machines, WHILE-programs, recursive functions, Markov algorithms, and Thue systems. All these concepts turned out to be equivalent, a fact summarized in Church's thesis, which says that the resulting definitions form an adequate formalization of the intuitive notion of computability. This had and continues to have an enormous effect. First of all, with these notions it has been possible to prove that various problems are algorithmically unsolvable. Among of group these undecidable problems are the halting problem, the word problem theory, the Post correspondence problem, and Hilbert's tenth problem. Secondly, concepts like Turing machines and WHILE-programs had a strong influence on the development of the first computers and programming languages. In the era of digital computers, the question of finding efficient solutions to algorithmically solvable problems has become increasingly important. In addition, the fact that some problems can be solved very efficiently, while others seem to defy all attempts to find an efficient solution, has called for a deeper understanding of the intrinsic computational difficulty of problems.

Philosophy and Theology in the Long Middle Ages Oct 07 2021 The title of this Festschrift to Stephen Brown points to the understanding of medieval philosophy and theology in the longue durée of their traditions and discourses. The 35 contributions are disposed in five parts: Metaphysics and Natural Philosophy, Epistemology and Ethics, Philosophy and Theology, Theological Questions, Text and Context.

The Legacies of the Romani Genocide in Europe since 1945 Jun 15 2022 This book explores the legacies of the genocide of Roma in Europe after the end of the Second World War. Hundreds of thousands of people labelled as 'Gypsies' were persecuted or killed in Nazi Germany and across occupied Europe between 1933 and 1945. In many places, discrimination continued after the war was over. The chapters in this volume ask how these experiences shaped the lives of Romani survivors and their families in eastern and western Europe since 1945. This book will appeal to researchers and students in Modern European History, Romani Studies, and the history of genocide and the Holocaust.

The Black Horse of God Aug 05 2021 To save the herd and preserve the precious bloodlines, Jacques is chosen to escape France with three of the best, a young stallion and two mares. Just twenty years old, he has never been far from his family's farm and now is faced with immigration to the wilderness of Canada West. Escape from France was harrowing but not as difficult as getting out of England. Woven through the adventure, intrigue and romance, is an astounding tale of spiritual transformation affecting many from Southampton to Liverpool.

Clerical Celibacy in the West: c.1100-1700 Dec 17 2019 The debate over clerical celibacy and marriage had its origins in the early Christian centuries, and is still very much alive in the modern church. The content and form of controversy have remained remarkably consistent, but each era has selected and shaped the sources that underpin its narrative, and

imbued an ancient issue with an immediacy and relevance. The basic question of whether, and why, continence should be demanded of those who serve at the altar has never gone away, but the implications of that question, and of the answers given, have changed with each generation. In this reassessment of the history of sacerdotal celibacy, Helen Parish examines the emergence and evolution of the celibate priesthood in the Latin church, and the challenges posed to this model of the ministry in the era of the Protestant Reformation. Celibacy was, and is, intensely personal, but also polemical, institutional, and historical. Clerical celibacy acquired theological, moral, and confessional meanings in the writings of its critics and defenders, and its place in the life of the church continues to be defined in relation to broader debates over Scripture, apostolic tradition, ecclesiastical history, and papal authority. Highlighting continuity and change in attitudes to priestly celibacy, Helen Parish reveals that the implications of celibacy and marriage for the priesthood reach deep into the history, traditions, and understanding of the church.

Liver Transplantation Feb 28 2021 This book covers a wide spectrum of topics including, but not limited to, the technical issues in living and deceased donor liver transplant procedures, cell and experimental liver transplantation, and the complications of liver transplantation. Some of the very important topics, such as the arterial reconstruction in living donor liver transplantation, biliary complications, and the post-transplant-lymphoproliferative disorders (PTLD), have been covered in more than one chapter.

Communicative Approaches for Ancient Languages Nov 27 2020 This book is the first in its field. It showcases current and emerging communicative practices in the teaching and learning of ancient languages (Latin and Greek) across contemporary education in the US, the UK, South America and continental Europe. In all these parts of the globe, communicative approaches are increasingly being accepted as showing benefits for learners in school, university and college classrooms, as well as at specialist conferences which allow for total immersion in an ancient language. These approaches are characterised by interaction with others using the ancient language. They may include various means and modalities such as face-to-face conversations and written communication. The ultimate aim is to optimise the facility to read such languages with comprehension and engagement. The examples showcased in this volume provide readers with a vital survey of the most current issues in communicative language teaching, helping them to explore and consider adoption of a wider range of pedagogical practices, and encouraging them to develop tools to promote engagement and retention of a wider variety of students than currently find ancient languages accessible. Both new and experienced teachers and learners can build on the experiences and ideas in this volume to explore the value of these approaches in their own classrooms.

The Routledge Companion to Migration, Communication, and Politics Jan 22 2023 The Routledge Companion to Migration, Communication and Politics brings together academics from numerous disciplines to show the legal, political, communicative, theoretical, methodological, and media implications of migration. The collection makes the compelling case that migration does not occur in a vacuum; rather, it is driven by and reacts to various factors, including the political, economic, and cultural worlds in which individuals live. The 25 chapters reveal the complex nature of migration from various angles, not only looking at how policy affects migrants but also how individuals and marginalized groups are impacted by such acts. In Part I contributors examine migration law, debating the role of the state in managing migration flows and investigating existing migration policy. Part II offers theories and methods that integrate communication studies, political science, and law into the study of migration, including cultural fusion theory and Gebserian theory. Part III looks at how contemporary perceptions of migration and migrants intersect with media representations across media outlets worldwide. Finally, Part IV offers case studies that present the intricacies of migration within different cultural, national, and political groups. Migration is the key political, economic, and cultural issue of our time and this companion takes the next step in the debate; namely, the effects of the how, in addition to the how and why. Researchers and students of communication, politics, media, and law will find this an invaluable intervention.

The Christian Church from the 1st to the 20th Century Apr 20 2020 Philip Schaff almost needs no introduction. He wrote one of the finest histories of the church. His work, the History of the Christian Church, has become a benchmark on the subject. In his eight volume set he covers just about every issue concerning the church from the time of the Apostles through the Reformation. He incorporates discussion of ideas and principles throughout the history of the church. In this eBook all eight volumes are present and there is also a linked table of contents for every section. We have also labeled every section and chapter so that it will be easier to navigate through the volumes. This material has been carefully compared, corrected, and amended, according to the 1910 edition of Charles Scribner's Sons. Here are the general titles of each of the volumes: Volume One THE FIRST PERIOD APOSTLIC CHRISTIANITY A.D. 1-100. Volume II SECOND PERIOD ANTE-NICENE CHRISTIANITY A.D. 100-311 (325). Volume III THIRD PERIOD THE CHURCH IN UNION WITH THE ROMAN EMPIRE FROM CONSTANTINE THE GREAT TO GREGORY THE GREAT. A.D. 311-590. Volume IV MEDIAEVAL CHRISTIANITY From Gregory I to Gregory VII A.D. 590-1073 Volume V FROM GREGORY VII. TO BONIFACE VIII. A. D. 1049-1294. Volume VI FROM BONIFACE VIII. TO MARTIN LUTHER. A.D. 1294-1517. THE SIXTH PERIOD OF CHURCH HISTORY. Volume VII HISTORY OF THE REFORMATION. 1517 - 1648. Volume VIII SECOND BOOK. THE SWISS REFORMATION. THIRD BOOK. THE REFORMATION IN FRENCH SWITZERLAND, OR THE CALVINISTIC MOVEMENT.

Commentaries: Books III-IV Mar 20 2020 The Renaissance popes were among the most enlightened and generous patrons of arts and letters in the Europe of their day. Commentaries, the only autobiography ever written by a pope, was composed in elegant humanistic Latin modeled on Caesar and Cicero. This edition contains a fresh Latin text and an updated translation.

Tears Over Russia Aug 17 2022 A sweeping saga of a family and community fighting for survival against the ravages of history. Set between events depicted in *Fiddler on the Roof* and *Schindler's List*, Lisa Brahin's *Tears over Russia* brings to life a piece of Jewish history that has never before been told. Between 1917 and 1921, twenty years before the Holocaust began, an estimated 100,000 to 250,000 Jews were murdered in anti-Jewish pogroms across the Ukraine. Lisa grew up transfixed by her grandmother Channa's stories about her family being forced to flee their hometown of Stavishche, as armies and bandit groups raided village after village, killing Jewish residents. Channa described a perilous three-year journey through Russia and Romania, led at first by a gallant American who had snuck into the Ukraine to save his immediate family and ended up leading an exodus of nearly eighty to safety. With almost no published sources to validate her grandmother's tales, Lisa embarked on her incredible journey to tell Channa's story, forging connections with archivists around the world to find elusive documents to fill in the gaps of what happened in Stavishche. She also tapped into connections closer to home, gathering testimonies from her grandmother's relatives, childhood friends and neighbors. The result is a moving historical family narrative that speaks to universal human themes—the resilience and hope of ordinary people surviving the ravages of history and human cruelty. With the growing passage of time, it is unlikely that we will see another family saga emerge so richly detailing this forgotten time period. *Tears Over Russia* eloquently proves that true life is sometimes more compelling than fiction.

Gypsy Politics and Social Change Jul 16 2022 This book, first published in 1974, analyses the position of the Gypsies in Britain in the twentieth century, and assesses its significance in their overall history. Two dramatic shifts in Government policy towards the Gypsies are examined – in the 1880s and the 1960s – as are the changes in the stereotype of the 'true Gypsy'. Dr Acton traces the developments of attitudes and economic conditions that gave rise to the 1970s increase in interest in Gypsies, and discusses the concomitant political and pressure group activity. He gives an account of the historical background to modern Gypsy politics; describes the postwar situation of the Gypsies in England and Wales, including pro-Gypsy pressure group activity up to 1965, and goes on to cover the campaigns of the Gypsy Council, including a sociological assessment of its work. He considers these aspects of Gypsy life in the light of modern sociological theory on minorities and race relations.

M.T. Ciceronis oratio pro Tito Annio Milone, ed. by J.S. Purton Nov 20 2022

Latin Made Simple Apr 13 2022 Offers a course in basic grammar and syntax to the standard of GCSE examining boards. It includes exercises that give practice in all the major usages and, since the text is intended primarily for use in self-tuition, answers are also provided. To add both interest and a further dimension to the study of the language there are frequent digressions into aspects of Roman life and culture. Revision sections follow chapter groupings covering: The Verb, Nouns, Adjectives, Irregular Verbs, Familiar Abbreviations, Geometrical and Historical terms.

Medical Infrared Imaging Jan 10 2022 The evolution of technological advances in infrared sensor technology, image processing, "smart" algorithms, knowledge-based databases, and their overall system integration has resulted in new methods of research and use in medical infrared imaging. The development of infrared cameras with focal plane arrays no longer requiring cooling, added a new dimension to this modality. *Medical Infrared Imaging: Principles and Practices* covers new ideas, concepts, and technologies along with historical background and clinical applications. The book begins by exploring worldwide advances in the medical applications of thermal imaging systems. It covers technology and hardware including detectors, detector materials, un-cooled focal plane arrays, high performance systems, camera characterization, electronics for on-chip image processing, optics, and cost-reduction designs. It then discusses the physiological basis of the thermal signature and its interpretation in a medical setting. The book also covers novel and emerging techniques, the complexities and importance of protocols for effective and reproducible results, storage and retrieval of thermal images, and ethical obligations. Of interest to both the medical and biomedical engineering communities, the book explores many opportunities for developing and conducting multidisciplinary research in many areas of medical infrared imaging. These range from clinical quantification to intelligent image processing for enhancement of the interpretation of images, and for further development of user-friendly high-resolution thermal cameras. These would enable the wide use of infrared imaging as a viable, noninvasive, low-cost, first-line detection modality.

Music of the Middle Ages: Volume 1 Feb 11 2022 A unique history of the vast repertory of monophonic music of the Middle Ages.

Voyage of the Black Horse Jul 04 2021 Jacques has left the love of his life, Jeannette, in England as he follows his destiny, immigrating to Canada with his three Percheron horses from France in a harrowing voyage from Liverpool to Montreal in late winter of 1852, while she and her family are dealing with the consequences of her dysfunctional brother's behavior, promising to follow when things are better. After their business is bombed and their stable burned, she convinces her family to immigrate with her, but on the way to Liverpool, her rebellious brother falls in love with Lord Montgomery's daughter, with disastrous implications. Fast-moving adventure and intriguing romance make this a page-turner. Set in the midst of the Victorian Age, the intrigue of the Gypsies, woven through with the Gospel Message, it is both an exciting and heartwarming tale.

Indigenous Pathways Into Social Research Apr 01 2021 A new generation of indigenous researchers is taking its place in the world of social research in increasing numbers. These scholars provide new insights into communities under the research gaze and offer new ways of knowing to traditional scholarly models. They also move the research community toward more sensitive and collaborative practices. But it comes at a cost. Many in this generation have met with resistance or indifference in their journeys through the academic system and in the halls of power. They also often face ethical quandaries or even strong opposition from their own communities. The life stories in this book present the journeys of over 30 indigenous researchers from six continents and many different disciplines. They show, in their own words, the challenges, paradoxes, and oppression they have faced, their strategies for overcoming them, and how their work has

produced more meaningful research and a more just society.

Rainbows in Your Eyes Dec 09 2021 Andrew Dorincourt has the blood of powerful shifters in his veins. It's his job to take care of his siblings, who are his pack, and he has no intention of letting anything get in the way. However, he's seen the love shared not only by his parents but by the Papas, the men who raised his mother, and he wants that for himself. The problem is none of the young women he's dated have left him wanting anything more than to go home alone. Perhaps he'd have more success by dating men, as his brother does. Only it seems he's not very successful at that, either. Da'ric is the son of Ric'u, a Brachi who'd been stranded on Terra for decades, and David Knight, an ichthyologist who traveled up the Amazon in search of his heart's desire. Seeing the deep love his fathers have for each other, Da'ric determines to settle for nothing less. At any rate, the dating pool is pretty much empty in the Lagoon of Dreams, and so he goes to the States, where he intends to become a herpetologist. In order to do that, he must mingle with normals, Terrans who have no idea extraterrestrials share the planet with them. When he walks among Terrans, he must disguise his heritage by wearing sunglasses to conceal his rainbow-colored eyes and long-sleeved shirts to hide his scale-patterned skin. After being kidnapped and sold to a high-ranking member of the London underworld to be displayed as the Snake Boy, Da' despairs of ever seeing his beloved family again, until Drew wanders into the House of Oddities and helps Da' escape. Is it fate, kismet, or destiny that brings together the offspring of two very unique families? Have these two been waiting for each other, and will the future hold the love they'd both been seeking?

Contemporary Microenterprise Jun 03 2021 While there have been numerous books and articles written on the popular topic of microfinance, few books have been written on the business model behind it: the microenterprise. Due to its diversity of thought and high quality of chapter contributions, this book is poised to be the book on microenterprises. Contemporary Microenterprise is a collage of the latest research and viewpoints on the subject by recognized academics and experts from around the globe. Through the confluence of diverse and profound voices from around the world, very small (micro) businesses have proven to be the most prevalent and fastest-growing business form, and a suitable model for enterprise survival and success in a challenging global economy. Joseph Mark Munoz has brought together an international cast of contributors, and draws insights from concepts and cases from locations such as Vietnam, the United States, Latin America and Africa. The chapters include conceptual frameworks and research that yield valuable lessons and practical business solutions. The broad scope of this compendium, coupled with its careful attention to detail, will be of critical value to business students and their professors, industry executives, government officials, policymakers, consultants and entrepreneurs.

Protecting Vulnerable Groups Aug 25 2020 The concept of vulnerability has not been unequivocally interpreted either in regional or in universal international legal instruments. This book analyses the work of the EU and the Council of Europe in ascertaining a clear framework or a set of criteria suitable to determine those who should be considered vulnerable and disadvantaged. It also explores the measures required to protect their human rights. Key questions can be answered by analysing the different methods used to determine the levels of protection offered by the two European systems. These questions include whether the Convention and the case law of the Strasbourg Court, the monitoring mechanisms of the Council of Europe, EU law and the case law of the European Court of Justice enhance the protection of vulnerable groups and expand the protection of their rights, or, alternatively, whether they are mainly used to fill in relatively minor gaps or occasional lapses in national rights guarantees. The analysis also shows the extent to which these two European systems provide analogous, or indeed divergent, standards and how any such divergence might be problematic in light of the EU accession to the European Convention on Human Rights.

History against the Pagans by Orosius (Illustrated) May 14 2022 Paulus Orosius was a fifth century Roman historian and a student of Augustine of Hippo. His 'Seven Books of History against the Pagans' is a major work that had a great impact on historiography during the period between antiquity and the Middle Ages. It presents an engaging historical narration, focusing on the pagan peoples from the earliest time up until when the author was alive. Orosius' objective was to compose a work that could prove that Rome's decadence and its recent sacking by Alaric I was not a result of its conversion to Christianity. Delphi's Ancient Classics series provides eReaders with the wisdom of the Classical world, with both English translations and the original Latin texts. This eBook presents Orosius' 'Seven Books of History against the Pagans', with illustrations and an informative introduction. (Version 1) * Beautifully illustrated with images relating to Orosius' life and works * Features the complete text of 'Seven Books of History against the Pagans', in both English translation and the original Latin * Concise introduction to the text * Features Irving Woodworth Raymond's 1936 translation * Excellent formatting of the texts * Easily locate the chapters you want to read with individual contents tables * Provides a special dual English and Latin text, allowing readers to compare the sections paragraph by paragraph — ideal for Latin students * Features a brief biography * Ordering of texts into chronological order and literary genres Please visit www.delphiclassics.com to explore our range of Ancient Classics titles or buy the entire series as a Super Set

Communes and Despots in Medieval and Renaissance Italy Nov 15 2019 Building on important issues highlighted by the late Philip Jones, this volume explores key aspects of the city state in late-medieval and Renaissance Italy, particularly the nature and quality of different types of government. It focuses on the apparently antithetical but often similar governmental forms represented by the republics and despotisms of the period. Beginning with a reprint of Jones's original 1965 article, the volume then provides twenty new essays that re-examine the issues he raised in light of modern scholarship. Taking a broad chronological and geographic approach, the collection offers a timely re-evaluation of a question of perennial interest to urban and political historians, as well as those with an interest in medieval and Renaissance Italy.

Pseudo-martyr May 22 2020 Pseudo-Martyr was Donne's first published work and the only one he wrote as a lawyer. It is also an autobiographical document which reveals how Donne resolved his own lapse from Catholicism so that he could remain loyal to the king. A descendant of Thomas More's sister, Donne had inherited a rich tradition from the Counter-Reformation, which he sought to reconcile with the political absolutes of his day. Anthony Raspa provides a definitive critical edition of this long-neglected work, setting it in its historical context and making the forest of quotations and references given by Donne in the main body of the text and its margins intelligible to the modern reader.

A Companion to Roman Religion Feb 17 2020 A comprehensive treatment of the significant symbols and institutions of Roman religion, this companion places the various religious symbols, discourses, and practices, including Judaism and Christianity, into a larger framework to reveal the sprawling landscape of the Roman religion. An innovative introduction to Roman religion Approaches the field with a focus on the human-figures instead of the gods Analyzes religious changes from the eighth century BC to the fourth century AD Offers the first history of religious motifs on coins and household/everyday utensils Presents Roman religion within its cultural, social, and historical contexts

Hedoen: A Wolf's Tale Jul 24 2020 "This boy has a terrible destiny. I have witnessed it. He will see the end of the Vukodlak." Two boys, brothers. Twins. Different in many ways, but with a bond which can never be broken. Separated by Fate, only one of them can become Alpha and lead his people against the most dangerous threat they have ever faced. A tale of love and loss, conflict and betrayal as the Vukodlak struggle for their survival. Hedoen: A Wolf's Tale. The eagerly anticipated prequel to Agent Wolf.

A Companion to Byzantine Italy Dec 29 2020 This book offers a collection of essays on Byzantine Italy which provides a fresh synthesis of current research as well as new insights on various aspects of its local societies from the 6th to the 11th century.

The Limits of History Jan 18 2020 History casts a spell on our minds more powerful than science or religion. It does not root us in the past at all. It rather flatters us with the belief in our ability to recreate the world in our image. It is a form of self-assertion that brooks no opposition or dissent and shelters us from the experience of time. So argues Constantin Fasolt in *The Limits of History*, an ambitious and pathbreaking study that conquers history's power by carrying the fight into the center of its domain. Fasolt considers the work of Hermann Conring (1606-81) and Bartolus of Sassoferrato (1313/14-57), two antipodes in early modern battles over the principles of European thought and action that ended with the triumph of historical consciousness. Proceeding according to the rules of normal historical analysis—gathering evidence, putting it in context, and analyzing its meaning—Fasolt uncovers limits that no kind of history can cross. He concludes that history is a ritual designed to maintain the modern faith in the autonomy of states and individuals. God wants it, the old crusaders would have said. The truth, Fasolt insists, only begins where that illusion ends. With its probing look at the ideological underpinnings of historical practice, *The Limits of History* demonstrates that history presupposes highly political assumptions about free will, responsibility, and the relationship between the past and the present. A work of both intellectual history and historiography, it will prove invaluable to students of historical method, philosophy, political theory, and early modern European culture.

When Spell Freezes Over Oct 15 2019 Everyone deserves a happy ending, or so the saying goes. Not going to lie, things look bleak, don't they? Archangel Michael has seized control of Hell, and Zeus is dead. The Hell-Heaven Accords could falter at any moment, and when they do, bedlam. Cats marrying dogs, fire raining from the sky, chipmunks stuffing taxidermists... And the throne of the Underworld being tossed up for contention. Marc Angeletti used to be one of the good guys. The last place the former priest and fallen Pure Soul ever thought he'd end up was in Hell, vying with fallen angels for power. Marc's faith, however, may prove the key to winning the day—the only catch being that that means making the love of his life, Riona, into the enemy. No problem, he's done it before. Only then, it was because damnation would be the price for sleeping with the witch. As a demon, what does he have to lose trying to seduce her to join him in Hell? If he plays this game of underworld politics just right, he might be able to have his cake and eat her too. Meanwhile, Riona, Jerry, and Dee finally decode the Keystone's prophecy, making them realize the true implications of the coming battle. New alliances and old adversaries vie for favor, and Marc shows up to aid the Pure Souls just as a revenge-bent Greek goddess demands both Hell and Heaven's attention. Only, Riona isn't sure what Marc's true goal is: helping defeat the fallen, or undermining her marriage to Jerry.

Fires in the Dark Nov 08 2021 'An epic novel ... absorbing, shocking, hopeful.' Mail on Sunday Available for the first time in eBook, Louise Doughty's award-winning novel *Fires in the Dark*. Yenka is born in 1920s Bohemia to a nomadic Roma family who try to protect him from the hardships imposed on his people. But his childhood world is soon overwhelmed by the Great Depression and the German invasion. Yenka and his parents become fugitives from the Nazis, and ultimately Yenka must decide who and what is worth saving. Louise Doughty - drawing on her own Romany family history - has written a breathtaking novel of grand scope which also sheds new light on the Holocaust and its Roma victims.

Markedness and Language Change Feb 23 2023 'Markedness' is a central notion in linguistic theory. This book is the first to provide a comprehensive survey of markedness relations across various grammatical categories, in a sample of closely-related speech varieties. It is based on a sample of over 100 dialects of Romani, collected and processed via the Romani Morpho-Syntax (RMS) Database - a comparative grammatical outline in electronic form, constructed by the authors between 2000-2004. Romani dialects provide an exciting sample of language change phenomena: they are oral languages, which have been separated and dispersed from some six centuries, and are strongly shaped by the influence of diverse contact languages. The book takes a typological approach to markedness, viewing it as a hierarchy among values that is conditioned by conceptual and cognitive universals. But it introduces a functional-pragmatic notion of

markedness, as a grammaticalised strategy employed in order to prioritise information. In what is referred to as 'dynamic', such prioritisation is influenced by an interplay of factors: the values within a category and the conceptual notions that they represent, the grammatical structure onto which the category values are mapped, and the kind of strategy that is applied in order to prioritise certain value. Consequently, the book contains a thorough survey of some 20 categories (e.g. Person, Number, Gender, and so on) and their formal representation in various grammatical structures across the sample. The various accepted criteria for markedness (e.g. Complexity, Differentiation, Erosion, and so on) are examined systematically in relation to the values of each and every category, for each relevant structure. The outcome is a novel picture of how different markedness criteria may cluster for certain categories, giving a concrete reality to the hitherto rather vague notion of markedness. Borrowing and its relation to markedness is also examined, offering new insights into the motivations behind contact-induced change.

Heinrich Bullinger on Prophecy and the Prophetic Office (1523–1538) Oct 27 2020 It has often been noted that the Protestant Reformation of the early sixteenth century witnessed a revived interest in the scriptural notions of prophets and prophecy. Drawing from both late medieval apocalyptic expectations of the immanent end of the world and from a humanist revival of biblical studies, the prophet appeared to many as a suitable role model for the Protestant preacher. A prominent proponent of this prophetic model was the Swiss theologian and church leader Heinrich Bullinger (1504–1575). This study by Daniël Timmerman presents the first in-depth investigation of Bullinger's concept of prophecy and his understanding of the prophetic office. It also engages with the history of the Zurich institute for the study of the Scriptures, which has become widely known as the »Prophezei«.

Chest Medicine Sep 25 2020 A favorite among residents and pulmonary fellows, this text provides all the information needed to evaluate and manage respiratory diseases and critically ill patients and to pass the American Board of Internal Medicine's subspecialty exam in pulmonary medicine. The Fifth Edition includes new information on ARDS, sedation of critically ill patients, rehabilitation for COPD, care of elderly patients, genetic testing for asthma, CTA and other diagnostic techniques for pulmonary thromboembolism, new antifungal drugs without renal toxicity, new treatment guidelines for pneumothorax, and ventilators and noninvasive ventilation for respiratory failure. This edition also includes more algorithms and differential diagnosis tables.

A Companion to the City of Rome Jun 22 2020 A Companion to the City of Rome presents a series of original essays from top experts that offer an authoritative and up-to-date overview of current research on the development of the city of Rome from its origins until circa AD 600. Offers a unique interdisciplinary, closely focused thematic approach and wide chronological scope making it an indispensable reference work on ancient Rome. Includes several new developments on areas of research that are available in English for the first time. Newly commissioned essays written by experts in a variety of related fields. Original and up-to-date readings pertaining to the city of Rome on a wide variety of topics including Rome's urban landscape, population, economy, civic life, and key events.
