Mad Honey Aug 05 2021 NEW YORK TIMES BESTSELLER • “Alternatingly heart-pounding and heartbreaking. This collaboration between two best-selling authors seamlessly weaves together Olivia and Lily’s journeys, creating a provocative exploration of the strength that love and acceptance require.”—The Washington Post GOOD MORNING AMERICA BOOK CLUB PICK • PEOPLE’S BOOK OF THE WEEK ONE OF THE BEST BOOKS OF THE YEAR: PopSugar Olivia McAfee knows what it feels like to start over. Her picture-perfect life—living in Boston,

married to a brilliant cardiothoracic surgeon, raising their beautiful son, Asher—was upended when her husband revealed a darker side. She never imagined that she would end up back in her sleepy New Hampshire hometown, living in the house she grew up in and taking over her father’s beekeeping business. Lily Campanello is familiar with do-overs, too. When she and her mom relocate to Adams, New Hampshire, for her final year of high school, they both hope it will be a fresh start. And for just a short while, these new beginnings are exactly what Olivia and Lily need. Their paths cross when Asher falls for the new girl in school, and Lily can’t help but fall for him, too. With Ash, she feels happy for the first time. Yet at times, she wonders if she can trust him completely. . . . Then one day, Olivia receives a phone call: Lily is dead, and Asher is being questioned by the police. Olivia is adamant that her son is innocent. But she would be lying if she didn’t acknowledge the flashes of his father’s temper in Ash, and as the case against him unfolds, she realizes he’s hidden more than he’s shared with her. *Mad Honey* is a riveting novel of suspense, an unforgettable love story, and a moving and powerful exploration of the secrets we keep and the risks we take in order to become ourselves.

The Things They Carried Oct 07 2021 The million-copy bestseller, which is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling.

The Milltown Boys at Sixty Jan 18 2020 The *Milltown Boys at Sixty* is a story like no other, giving both an insider and an outsider view of the ‘Milltown Boys’, exploring the nature of an ethnographic relationship based on research about their experiences of the criminal justice system. A group classically labelled as delinquents, drug-takers and drop-outs,

the Boys were also, in many different ways, fathers, friends and family men, differentially immersed in the labour market, in very different family relationships and now very differently connected to criminal activity. Williamson has written books capturing their experiences over the fifty years of his continued association with them: about their teenage years; and twenty years later, in middle-age. This book is about them as they pass the age of 60, providing a personal account of the relationship between Williamson and the Boys, and the distinctive – perhaps even controversial – research methodology that enabled the mapping of their lives. It provides a unique and detailed insight into the ways in which the lives of the Milltown Boys that started with such shared beginnings have unfolded in so many diverse and fascinating ways. These accounts will be of interest to the lay reader curious about the way others have managed (or failed to manage) their lives, the professional who works with those living, often struggling, on the wrong side of the tracks, and the academic researching and teaching about social exclusion, substance misuse, criminal justice transitions and the life course.

Advancing the Integrity of Professional Practice Dec 17 2019 Defining integrity as "the combination of attributes and actions that makes people and organizations coherent, consistent, and potentially ethical," the editor and contributing authors illustrate how student affairs administrators can understand and implement integrity in their institutions. Early chapters explore the organizational integrity of student affairs. Transactional and transformational leadership perspectives are discussed in the second section. Other contributing authors tie education to integrity. In their chapter, Dennis Roberts and Trudy Banta engage in a dialogue about the way student development theory should guide practice, and how its assessment is essential to maintain the integrity of our practice. Sue Saunders and Jennifer Lease Butts consider how we should teach integrity to graduate students and new professionals. Final chapters explore challenges to integrity ranging from those in the normal work routines, such as resident hall directors confronting late night parties or interoffice dynamics, to those faced in

extraordinary circumstances such as the ones faced in the wake of Hurricane Katrina. Readers of this volume will learn how integrity affects the trustworthiness of their organizations and operations. They will have the opportunity to read about the highest goals and the best practices of leadership, and gain ideas about some practical strategies that can help them deal with challenges to organizational and individual integrity. This is the 135th volume of the Jossey-Bass quarterly report series *New Directions for Student Services*, An indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals, *New Directions for Student Services* offers guidelines and programs for aiding students in their total development: emotional, social, physical, and intellectual.

The Living Sea of Waking Dreams Jul 24 2020 From the acclaimed Booker Prize-winning author comes a dazzling novel of family, love and love's disappointments Anna's aged mother is dying. Condemned by her children's pity to living, subjected to increasingly desperate medical interventions, she turns her focus to her hospital window, through which she escapes into visions of horror and delight. When Anna's finger vanishes and a few months later her knee disappears, Anna too feels the pull of the window. She begins to see that all around her, others are similarly vanishing, yet no one else notices. All Anna can do is keep her mother alive. But the window keeps opening wider, taking Anna and the reader ever deeper into an eerily beautiful story of grief and possibility, of loss and love and orange-bellied parrots. Hailed on publication in Australia as Richard Flanagan's greatest novel yet, *The Living Sea of Waking Dreams* is a rising ember storm illuminating what remains when the inferno beckons: one part elegy, one part dream, one part hope.

Do Apes Read Minds? Nov 15 2019 An argument that as folk psychologists humans (and perhaps other animals) don't so much read minds as see one another as persons with traits, emotions, and social relations. By adulthood, most of us have become experts in human behavior, able to make sense of the myriad behaviors we find in environments ranging from the family home to the local mall and beyond. In philosophy of mind, our understanding of others has been largely explained in terms of knowing others' beliefs and desires; describing others' behavior in these terms is the core of what is known as folk psychology. In *Do Apes Read Minds?* Kristin Andrews challenges this view of folk psychology, arguing that we don't consider others' beliefs and desires when predicting most quotidian behavior, and that our explanations in these terms are often inaccurate or unhelpful. Rather than mindreading, or understanding others as receptacles for propositional attitudes, Andrews claims that folk psychologists see others first as whole persons with traits, emotions, and social relations. Drawing on research in developmental psychology, social psychology, and animal cognition, Andrews argues for a pluralistic folk psychology that employs different kinds of practices (including prediction, explanation, and

justification) and different kinds of cognitive tools (including personality trait attribution, stereotype activation, inductive reasoning about past behavior, and generalization from self) that are involved in our folk psychological practices. According to this understanding of folk psychology—which does not require the sophisticated cognitive machinery of second-order metacognition associated with having a theory of mind—animals (including the other great apes) may be folk psychologists, too.

Writing with Intent Oct 19 2022 From one of the world's most passionately engaged and acclaimed literary citizens comes *Writing with Intent*, the largest collection to date of Margaret Atwood's nonfiction, ranging from 1983 to 2005. Composed of autobiographical essays, cultural commentary, book reviews, and introductory pieces to great works of literature, this is the award-winning author's first book-length nonfiction publication in twenty years. Arranged chronologically, these writings display the development of Atwood's worldview as the world around her changes. Studs Terkel's Chicago Apr 20 2020 The author shares his memories of growing up in Chicago and anecdotes about the city and its inhabitants.

Where are Poor People to Live?: Transforming Public Housing Communities Apr 01 2021 This groundbreaking book shows how major shifts in federal policy are spurring local public housing authorities to demolish their high-rise, low-income developments, and replace them with affordable low-rise, mixed income communities. It focuses on Chicago, and that city's affordable housing crisis, but it provides analytical frameworks that can be applied to developments in every American city. "Where Are Poor People to Live?" provides valuable new empirical information on public housing, framed by a critical perspective that shows how shifts in national policy have devolved the U.S. welfare state to local government, while promoting market-based action as the

preferred mode of public policy execution. The editors and chapter authors share a concern that proponents of public housing restructuring give little attention to the social, political, and economic risks involved in the current campaign to remake public housing. At the same time, the book examines the public housing redevelopment process in Chicago, with an eye to identifying opportunities for redeveloping projects and building new communities across America that will be truly hospitable to those most in need of assisted housing. While the focus is on affordable housing, the issues addressed here cut across the broad policy areas of housing and community development, and will impact the entire field of urban politics and planning.

The Principle of Political Hope Nov 27 2020 "This book provides an action-theoretic view of political hope that draws on German idealism, critical theory, and American pragmatism. It offers an alternative to standard perspectives that reduce hope to either a subjective element of individual psychology or to the passive anticipation of the supposedly objective tendencies of the world itself. Featuring chapters on Immanuel Kant, Ernst Bloch, Charles Peirce, and William James, it presents hope instead as a practice of political action that both buttresses and promotes democratic experimentation. By reconstructing hope as a necessary condition for social and political engagement, it furthermore argues for the centrality of utopian thinking for practical action"--

And They All Sang Feb 17 2020 The Pulitzer Prize-winning historian talks with some of twentieth century's most iconic musicians—"Riveting . . . Just about every interview has a revelation" (San Francisco Chronicle). Through the second half of the twentieth century, Studs Terkel hosted the legendary radio show "The Wax Museum," presenting Chicago's music fans with his inimitable take on music of all kinds, from classical, opera, and jazz to gospel, blues, folk, and rock. Featuring more than forty of Terkel's conversations with some of the greatest musicians of the past century, *And They All Sang* is "a tribute to music's universality and power" (Philadelphia Inquirer). Included here are fascinating conversations with Louis Armstrong, Leonard Bernstein, Big Bill Broonzy, Bob Dylan, Dizzy Gillespie, Mahalia Jackson, Janis Joplin, Rosa

Raisa, Pete Seeger, and many others. As the esteemed music critic Anthony DeCurtis wrote in the Chicago Tribune, "the terms 'interview' or 'oral history' don't begin to do justice to what Terkel achieves in these conversations, which are at once wildly ambitious and as casual as can be." Whether discussing Enrico Caruso's nervousness on stage with opera diva Edith Mason or the Beatles' 1966 encounter in London with revered Indian sitar player Ravi Shankar, "Terkel's singular gift for bringing his subjects to life in their own words should strike a chord with any music fan old enough to have replaced a worn-out record needle" (The New York Times). "Whether diva or dustbowl balladeer, Studs treats them all alike, with deep knowledge and an intimate, conversational approach . . . as this often remarkable book shows, Studs Terkel has remained mesmerized by great music throughout his life." —The Guardian "[Terkel's] expertise is evident on every page, whether debating the harmonic structure of the spirituals or discerning the subtleties of Keith Jarrett's piano technique . . . As ever, he is the most skillful of interviewers." —The Independent "What makes *And They All Sang* a rousing success isn't just Terkel's phenomenal range and broad knowledge, it's his passionate love of the music and his deep humanity." —San Francisco Chronicle

We Keep the Dead Close Sep 18 2022 FINALIST FOR THE J. ANTHONY LUKAS BOOK PRIZE NATIONAL BESTSELLER Named One of The Best Books of 2020 by NPR's Fresh Air * Publishers Weekly * Marie Claire * Redbook * Vogue * Kirkus Reviews * Book Riot * Bustle A Recommended Book by The New York Times * The Washington Post * Publisher's Weekly * Kirkus Reviews* Booklist * The Boston Globe * Goodreads * BuzzFeed * Town & Country * Refinery29 * BookRiot * CrimeReads * Glamour * Popsugar * PureWow * Shondaland Dive into a "tour de force of investigative reporting" (Ron Chernow): a "searching, atmospheric and ultimately entrancing" (Patrick Radden Keefe) true crime narrative of an unsolved 1969 murder at Harvard and an "exhilarating and seductive" (Ariel Levy) narrative of obsession and love for a girl who dreamt of rising among men. You have to remember, he reminded me, that Harvard is older than the U.S. government. You have to remember because

Harvard doesn't let you forget. 1969: the height of counterculture and the year universities would seek to curb the unruly spectacle of student protest; the winter that Harvard University would begin the tumultuous process of merging with Radcliffe, its all-female sister school; and the year that Jane Britton, an ambitious twenty-three-year-old graduate student in Harvard's Anthropology Department and daughter of Radcliffe Vice President J. Boyd Britton, would be found bludgeoned to death in her Cambridge, Massachusetts apartment. Forty years later, Becky Cooper a curious undergrad, will hear the first whispers of the story. In the first telling the body was nameless. The story was this: a Harvard student had had an affair with her professor, and the professor had murdered her in the Peabody Museum of Archaeology and Ethnology because she'd threatened to talk about the affair. Though the rumor proves false, the story that unfolds, one that Cooper will follow for ten years, is even more complex: a tale of gender inequality in academia, a 'cowboy culture' among empowered male elites, the silencing effect of institutions, and our compulsion to rewrite the stories of female victims. *We Keep the Dead Close* is a memoir of mirrors, misogyny, and murder. It is at once a rumination on the violence and oppression that rules our revered institutions, a ghost story reflecting one young woman's past onto another's present, and a love story for a girl who was lost to history.

Hope Dies Last Feb 23 2023 America's most inspirational voices, in their own words: "If you're looking for a reason to act and dream again, you'll find it in the pages of this book" (Chicago Tribune). Published when Studs Terkel was ninety-one years old, this astonishing oral history tackles one of the famed journalist's most elusive subjects: Hope. Where does it come from? What are its essential qualities? How do we sustain it in the darkest of times? An alternative, more personal chronicle of the "American century," *Hope Dies Last* is a testament to the indefatigable spirit that Studs has always embodied, and an inheritance for those who, by taking a stand, are making concrete the dreams of today. A former death row inmate who served nearly twenty years for a crime he did not commit discusses his never-ending fight for justice. Tom Hayden, author of *The Port Huron Statement*, contemplates the legacy of 1960s student

activism. Liberal economist John Kenneth Galbraith reflects on the enduring problem of corporate malfeasance. From a doctor who teaches his young students compassion to the retired brigadier general who flew the *Enola Gay* over Hiroshima, these interviews tell us much about the power of the American dream and the force of individuals who advocate for a better world. With grace and warmth, Terkel's subjects express their secret hopes and dreams. Taken together, this collection of interviews tells an inspiring story of optimism and persistence, told in voices that resonate with the eloquence of conviction. "The value of *Hope Dies Last* lies not in what it teaches readers about its narrow subject, but in the fascinating stories it reveals, and the insight it allows into the vast range of human experience." —The A.V. Club "Very Terkel-esque—by now the man requires an adjective of his own." —Margaret Atwood, *The New York Times Review of Books* "An American treasure." —Cornel West [Hope in the Age of Anxiety](#) Jul 04 2021 Economic collapse, poverty, disease, natural disasters, the constant threat of community unrest and international terrorism—a quick look at any newspaper is enough to cause almost anyone to feel trapped and desperate. Yet the recent election also revealed a growing search for hope spreading through society. In the timely *Hope in the Age of Anxiety*, Anthony Scioli and Henry Biller illuminate the nature of hope and offer a multitude of techniques designed to improve the lives of individuals, and bring more light into the world. In this fascinating and humane book, Scioli and Biller reveal the ways in which human beings acquire and make use of hope. *Hope in the Age of Anxiety* is meant to be a definitive guide. The evolutionary, biological, and cultural roots of hope are covered along with the seven kinds of hope found in the world's religions. Just as vital, the book provides many personal tools for addressing the major challenges of the human condition: fear, loss, illness, and death. Some of the key areas illuminated in *Hope in the Age of Anxiety*: How do you build and sustain hope in trying times? How can hope help you to achieve your life goals? How can hope improve your relationships with others? How can hope aid your recovery from trauma or illness? How does hope relate to spirituality? *Hope in the Age of Anxiety* identifies the skills

needed to cultivate hope, and offers suggestions for using these capacities to realize your life goals, support health and healing, strengthen relationships, enhance spirituality, and inoculate yourself against the despair that engulfs many individuals.

The Research Imagination May 02 2021 The idea that science is a blueprint for research, and imagination gives research its life and purpose inspired this comprehensive explanation of research methodology. The authors' decades of experience have revealed that research is a craft requiring judgment and creativity, not simply memorization and application of the rules of science. Whether one is conducting an intimate one-on-one interview or a large-scale examination of an entire society, human imagination and scientific principles of inquiry go hand in hand. To that end, this book emphasizes scientific method, but also acknowledges its critics. It covers a wide variety of data-collection techniques, but presents them as reinforcing rather than competing with one another, thus striking a balance between qualitative and quantitative methods. It is designed for students and instructors who want a comprehensive treatment of a variety of research techniques with special emphasis on qualitative approaches.

Will the Circle Be Unbroken? Feb 11 2022 One of Studs Terkel's most important oral histories, *Will the Circle Be Unbroken?* turns to the ultimate human experience—that of death. Called "extraordinary...a work of insight, wisdom, and freshness" by the *Seattle Times* when it was first published fifteen years ago, the book explores—with unrivaled compassion and wisdom—the indelible variety of reactions to mortality and the experience of death and the possibility of life afterward. Here a

wide range of people addresses the unknowable culmination of our lives and its impact on the way we live, with memorable grace and poignancy. Included in this remarkable treasury of oral history are Terkel's interviews with such famed figures as Kurt Vonnegut and Ira Glass as well as with a range of ordinary people, from policemen and firefighters to emergency health workers and nurses, who confront death in their everyday lives. Whether a Hiroshima survivor or an AIDS caseworker, a death-row parolee or a woman who emerged from a two-year coma, these interviewees offer tremendous eloquence as they deal with a topic many are reluctant to discuss openly and freely. Rich, moving, and inspiring, *Will the Circle Be Unbroken?* is a stunning capstone to Terkel's extraordinary career. Only Terkel, whom Cornel West called "an American treasure," could have elicited such honesty and grace from people reflecting on the lives they have led and what lies before them still.
