Through wits and magic, she's able to keep the peace in both lands—and protect her relationship with Valek. But as old rivalries begin to emerge, Yelena discovers sinister plots that threaten to unravel the carefully won peace. Valek's job and his life are in danger. Shyla is a researcher who resides in the underground desert city of Zirdai, which is ruled by the wealthy Water Prince and brutal Heliacal Priestess. Even though Shyla is sun-kissed - an outcast, considered cursed by the Sun Goddess - she is still renowned for uncovering innumerable archaic facts, lost artefacts, ancient maps, and obscure historical documents. Her quiet life is about to change when Banqui, an archaeologist, enlists her services to find The Eyes of Tamburah: legendary gemstones that bestow great magic on their wielder. These ancient objects can tip the balance of power and give whoever possesses them complete control of the city. But chaos erupts when The Eyes are stolen soon after they're found - and Shyla is blamed for the theft. Forced to flee, with the Prince's soldiers and the Priestess' deacons on her trail, Shyla must recover the jewels and clear her name. A quest that will unearth secrets even more valuable than The Eyes of Tamburah themselves... Keep your head down. Don't get noticed. Or else. I'm Trella. I'm a scrub. A nobody. One of thousands who work the lower levels, keeping Inside clean for the Uppers. I've got one friend, do my job and try to avoid the Pop Cops. So what if I occasionally use the pipes to sneak around the Upper levels? The only neck at risk is my own. Until I accidentally start a rebellion, fall in love with an Upper and become the go-to girl to lead a revolution. Laying hands upon the injured and dying, Avry of Kazan absorbs their wounds and diseases into herself. But rather than being honored for her skills, she is hunted. Healers like Avry are accused of spreading the plague that has decimated the Fifteen Realms, leaving the survivors in a state of chaos.

Stressed and tired from hiding, Avry is abducted by a band of rogues who, shockingly, value her gift above the golden bounty offered for her capture. Their leader, an enigmatic captor-protector with powers of his own, is unequivocal in his demands: Avry must heal a plague-stricken prince—leader of a campaign against her people. As they traverse the daunting Nine Mountains, beset by mercenaries and magical dangers, Avry must decide who is worth healing and what is worth dying for. Because the price of peace may well be her life.... Choose: a quick death... or slow poison... Locked deep in the palace dungeon for killing her abuser, Yelena knows she'll never be free again. The laws in Ixia are strict, and murderers must be executed, no matter the reason. But just as she's resigned herself to her fate, she's offered an extraordinary reprieve. As the food taster, Yelena will eat the best meals, have rooms in the palace — and risk assassination by anyone trying to kill the Commander of Ixia. To make matters worse, the chief of security deliberately feeds her Butterfly's Dust, and only by appearing for her daily antidote will she delay an agonizing death from the poison. As Yelena tries to escape her new dilemma, disasters keep mounting. Rebels plot to seize Ixia and Yelena develops magical powers she can't control. Her life is threatened again, and in order to survive, she must unravel the secrets behind the past she's been running from. Previously published. A Protector Class spaceship is coming to our rescue, but we still have to survive almost two years until they arrive - if they arrive at all. "The answer is no, Lyra," my mother utters her favorite—I swear—phrase. No means I have to travel with them to another planet—again. No means leaving all my friends fifty years in the past. Thanks, Einstein. Seventeen-year-old Lyra Daniels can't truly blame Einstein or her parents for their impending move across the Milky Way Galaxy. It's all due to the invention of the Q-net, which made traveling the vast distances in space possible—with one big caveat: the time dilation. But that never stopped Lyra's ancestors from exploring the Milky Way, searching for resources and exoplanets to colonize.

What they didn't expect to find is life-sized terracotta Warriors buried on twenty-one different exoplanets. ... Make that twenty-two. As the Galaxy's leading experts on the Warriors, Lyra's parents are thrilled by the new discovery, sending them—and her—fifty years into the future. Her social life in ruins, she fills her lonely days by illegally worming into the Q-net. The only person close to her age is the annoyingly irresistible security officer who threatens to throw her into the brig. After the planet they just left goes silent—meaning no communications from them at all—security has bigger problems to deal with than Lyra, especially when vital data files go missing. But that's just the beginning, because they're not as alone as they thought on their new planet... and suddenly time isn't the only thing working against them.
